Like most of the warriors in the Prince's Men, Ben Gerringer was a misfit from birth. Though not a hardened criminal, his propensity for pranks and petty theft and his freewheeling attitude landed him in trouble from day one. In a society that prides itself on a place for everyone, there simply was no place for Ben. Bouncing from one job to the next, he finally made the mistake of taking a nobleman's daughter, and his only way off world was to join the Republic military.

Though a freewheeling attitude and a military career usually do not mix, Ben actually found the home he has

New, Panther DC010-73C walked off the assembly lines in 3081, the same year that the Republic of the Sphere was formed under the guidance of Devlin Stone. However, this Panther's short history is quite colorful.

It saw action against Clan Ghost Bear (soon to be the Rasalhague Dominion) in 3084. Then, as even the Combine's military was forced into cutbacks and "peace" broke out everywhere, it found its way to the Periphery, where it saw action against numerous pirate bands, including Vance Rezak and the Tortuga Fusiliers. Finally, it saw action against Clan Snow Raven at the beginning of the new century on the border with the Outworlds Alliance.

From that point it was cycled back through the interior of the Combine and traveled to Katana Tormark; why it was sent has not yet been determined. It was quickly taken in a skirmish by the Swordsworn and is currently piloted by Ben Gerringer, who has named it "Torch."
